What are cookies in computers?

Also known as browser cookies or tracking cookies, cookies are small, often encrypted text files, located in browser directories. They are used by web developers to help users navigate their websites efficiently and perform certain functions. Due to their core role of enhancing/enabling usability or site processes, disabling cookies may prevent users from using certain websites.

Cookies are created when a user's browser loads a particular website. The website sends information to the browser which then creates a text file. Every time the user goes back to the same website, the browser retrieves and sends this file to the website's server. Computer Cookies are created not just by the website the user is browsing but also by other websites that run ads, widgets, or other elements on the page being loaded. These cookies regulate how the ads appear or how the widgets and other elements function on the page.

Below you will find all the information about cookies installed through this website and all necessary information about how to manage your cookies preferences.

For more information about cookies and their general duties, visit the Web site informative allaboutcookies.org.

Cookies used by this website

The use of cookies by the owner of this website, *Valentina Bontempi Iani*, is compliant with the Privacy Policy described by art. 13 of Privacy Code (Click here).

The website *tigertrading.it* uses cookies to improve the user experience.
The following cookies are used:

· **Session Cookies:** Session cookies allow users to be recognized within a website so any page changes or item or data selection you do is remembered from page to page.
· **Analysis Cookies:** both temporary and permanent, they allow to collect aggregate information about user behavior on the site and thus improve the experience and content provided. The information gathered in this way has no value as personal data are collected and analyzed anonymously. Cookies are used specifically for Google Analytics in the manner shown on this page.

We don't use cookies for marketing purposes (targetingcookie) or to profile the user behavior while browsing; we don't also use third-party cookies.

All cookies technicians do not require approval, therefore, are installed automatically as a result of access to the site.

Remember you can manage your preferences about cookies through the browser

If you do not know the type and version of browser you are using, click on "Help" in the browser window at the top, from which you can access all the necessary information.

If you know your browser click on the following browser you are using to access the cookie management.

Internet Explorer
